Always inquisitive, never boring: Beakman and his friends take visitors on an interactive journey to explore four fantastic worlds: what we can discover in a rainforest, how we explore the universe, what we learn from digging up dinosaur bones, how we look at ourselves. Don't miss this zany exhibit! September 23rd through January 10, 2001.

Visitors to the IMAX® *Dome* Theater come heartstoppingly close to the great circle of volcanoes and seismic activity that rings the Pacific Ocean. Witness spectacular volcanic eruptions, see the effects of devastating earthquakes and meet those who dwell on the fiery boundary of the Pacific Rim. September 23rd through January 12, 2001.

RING OF FIRE

Pluck and tweak over 55 interactive exhibits dedicated to the science of fun. Play a tune on a laser harp, discover the power of water, lift yourself skyward with pulleys. Explore basic scientific theories using fun and practical applications. Open all year.
